### Rugby Headgear

Rugby Headgear is a necessary for preventing a serious damage to the brain. The damage could occur abruptly, following a serious accident but most of the times it occurs gradually.

Impactrugby offer a complete range of off & off field clothings like Rugby League Jerseys, **Rugby Kit**, headgears, Rugby Teamwear, mouth guards, balls, tees, mitts etc.

A good rugby outfit includes the four essentials: shirt, shorts, socks and boots, however there are other things to think about with under armor, head guards, under shorts, gum shields and sweatbands were very popular in the professional game.
